Nebil Seman

Full-Stack Engineer | Builder of Digital Systems

Dallas-Fort Worth, TX nebilsemanwrk@gmail.com GitHub LinkedIn

PROFILE

Full-stack engineer and product builder delivering web, mobile, and backend systems from architecture through launch. I combine product design, secure data workflows, and practical engineering to build software for real-world use.

EXPERIENCE & SELECTED PROJECTS

Smunicent

Jul 2026 - Present

Co-Founder & Chief Technology Officer

COMMUNITY PLATFORM · WEB, MOBILE & BACKEND

- Led product architecture, brand identity, UI/UX, and full-stack engineering across a city-based community platform and mobile application.
- Built city onboarding, community membership, feeds, posts, profiles, moderation workflows, and access-controlled chat using Supabase, PostgreSQL, and Stream Chat.
- Implemented technical SEO and responsive optimizations; a captured mobile PageSpeed audit recorded a 100/100 performance score.
- Supported the Android release and prepared the iOS application for launch.

Stack Next.js · React · TypeScript · React Native · Expo · Supabase · PostgreSQL · Stream Chat

Golden Pour Coffee

Feb 2026 - Jun 2026

Independent Full-Stack Developer & Brand Designer

HOSPITALITY · BRANDING, WEB & OPERATIONS

- Designed the brand identity and developed a responsive website for a Dallas-area mobile coffee-catering business.
- Engineered a multi-step inquiry experience with configurable, provisional service estimates subject to owner review.
- Developed an authenticated operations dashboard for inquiries, quotes, bookings, customer records, and business settings.
- Integrated Firebase Authentication and Cloud Firestore to support protected workflows and operational data.

Stack React · JavaScript · Vite · React Router · Bootstrap · Firebase Authentication · Cloud Firestore · Vercel
